FYP 1 Interim Report

by

Student Name

Student ID

Supervisor Name

Department of Electrical & Electronics Engineering

MAY 2022

ABSTRACT

An abstract is a short version of a report. It covers the report's purpose, scope, methodology, results and conclusion. Abstracts should be no longer than one page. Avoid the use of bold or italic in the abstract. The dissertation must be written in acceptable and formal English. Students are encouraged to use brief and straightforward wordings, use passive voice and avoid using jargon as much as possible. Extended proposal/ interim report/ progress report should be in the form of double-sided printing. The hard-bound printed copy of the dissertation should be in the form of single sided printing. Table and figures should be single spaced and computer programs/source codes must be reduced to font size 8.

TABLE OF CONTENTS

ABSTRACT			**iv**
LIST OF FIGURES			**vii**
LIST OF TABLES			**viii**
CHAPTER 1:	**INTRODUCTION**		1
	1.1	First Page in Each Chapter	1
	1.2	Second Page in Each Chapter	1
CHAPTER 2:	**LITERATURE REVIEW**		1
	2.1	General Writing Format	2
		2.1.1 Pagination	2
		2.1.2 Equation in Text	3
	2.2	Figures and Tables	3
	2.3	Maximum Length	5
CHAPTER 3:	**METHODOLOGY**		6
	3.1	Citing an Author or Authors	6
	3.2	Reference List	7
		3.2.1 Journal Paper	7
		3.2.2 Books	8
		3.2.2 Electronic Source	9
	3.3	EndNote Software	10
CHAPTER 4:	**RESULTS AND DISCUSSION**		6
	4.1	Citing an Author or Authors	6
	4.2	Reference List	7
		4.2.1 Journal Paper	7
		4.2.2 Books	8
		4.2.2 Electronic Source	9
	4.3	EndNote Software	10

CHAPTER 5: CONCLUSION 6

5.1 Citing an Author or Authors 6

5.2 Reference List 7

5.2.1 Journal Paper 7

5.2.2 Books 8

3.2.2 Electronic Source 9

3.3 EndNote Software 10

REFERENCES 11

APPENDICES 12

LIST OF FIGURES

Figure 2.1	Infrared spectra of chitosan and ionogel	4
Figure 2.2	SEM observations of: (a) porous composite electrode; (bed) composite electrode filled by a photo-ionogel. Scale bar d is 1 mm on each picture.	5
Figure 4.1	Endnote with APA style	12

LIST OF TABLES

Table 2.1	Example of a table	4
Table 2.2	Example of a table with more than one line. The caption needs to be on top of the table and justified	4
Table 2.3	Maximum length	5

CHAPTER 1

TITLE OF THE CHAPTER

1.1 First Page in Each Chapter

For the first page in every chapter the margin should follow: Top – 5cm, Left – 4cm, Right – 2.5cm and Bottom – 2.5cm. All text should be justify, 1.5 spacing between lines and 1 spacing between paragraphs. Use Times New Roman regular font-style, size 12 typed on a white A4 paper. Tab is used for the first line in every paragraph.

All headings should be in Times New Roman and bold. Title of the Chapter should be in capitals and in 14 font size while the primary, secondary and tertiary headings should be in title case and in 12 font size.

1.2 Second Page in Each Chapter

For the first page in every chapter the margin should follow: Top – 2.5cm, Left – 4cm, Right – 2.5cm and Bottom – 2.5cm. All text should be justify, 1.5 spacing between lines and 1 line spacing between paragraphs. Use Times New Roman regular font-style, size 12 typed on a white A4 paper. Tab is used for the first line in every paragraph.

Warning, turn ON formatting mark to see section break

CHAPTER 2

WRITING FORMAT

All final year students in UTP are required to undertake a Final Year Project (FYP) course, which is a design and/or research-based subject. This course is a compulsory element in all programmes offered in UTP. FYP is divided into two parts which are Final Year Project I (FYPI) and Final Year Project II (FYPII)

2.1 General Writing Format

The writing of the extended proposal/ interim report/ progress report and dissertation should adhere to the standard format as outlined in this template.

2.1.2 Pagination

All pages must be numbered in proper sequence from introduction to the end of the report including pages on figures, tables, computer programs and appendices. All front materials including certifications, abstract, list of tables and list of figure are numbered in small Roman numerals (e.g. i, ii, iii). For the main text, the page number should use 1,2,3,4… Page numbers appear by themselves and are not to be enclosed in parenthesis, hyphens or other decorative symbols. Page numbers must be positioned at the bottom and must be centered. Page number uses Times New Roman size 12.

2.1.2 Equation in Text

Mathematical equations must be spaced out; superscript and subscript must be clearly shown, and numbered. For example; the dielectric data obtained from the complex dielectric permittivity of ionogels based poly(methyl methacrylate) and metal-containing ionic liquids can be calculated using Equation 1 (Zehbe et al., 2016).

$$\varepsilon^*(\omega) = \varepsilon'(\omega) - i\varepsilon''(\omega) \quad (1)$$

The specific capacitance (C) of silica-based ionogels can be calculated via the Equation 2,

$$C = \frac{I_{avg}}{sA} \quad (2)$$

where I_{avg} is the average current magnitude of the cathodic and anodic sweeps, s is the voltage scan rate and A is the total electrode area covered by the ionogel (Wang et al., 2016).

2.2 Figures and Tables

Tables and figures are considered part of the report if it is within the main text. If it is of the size that is less than a page, it should be inserted into the text near the point of reference with a 3 spacing from the text. Tables should be on the same page. Margin limits of figures and tables should be the same as the full-page text. All tables and figures should be numbered based on the chapter. Table heading should be positioned at the top and centered for caption with only one line as shown in Table 3.1. If the table has more than one line of caption, the caption must be justify as shown in Table 3.2.

Table 2.1: Example of a Table

Table Head	Table Column Head		
	Table column subhead	***Subhead***	***Subhead***
text	text	text	text

Table 2.2: Example of a Table with More Than One Line. The Caption needs to be on Top of the Table and Justify.

Table Head	Table Column Head		
	Table column subhead	***Subhead***	***Subhead***
text	text	text	text

The caption for figure should be positioned at the bottom and centred for one line and justified for more than 2 lines. For example, Figure 2.1 shows is the infrared spectra of pristine chitosan and ionogel after elimination of the IL. Arrows show dNH_2 (blue) at 1586 cm^{-1} and the ethylenic bond (red) at 1563 cm^{-1} (Guyomard-Lack, Buchtova´, Humbert, & Bideau, 2015).

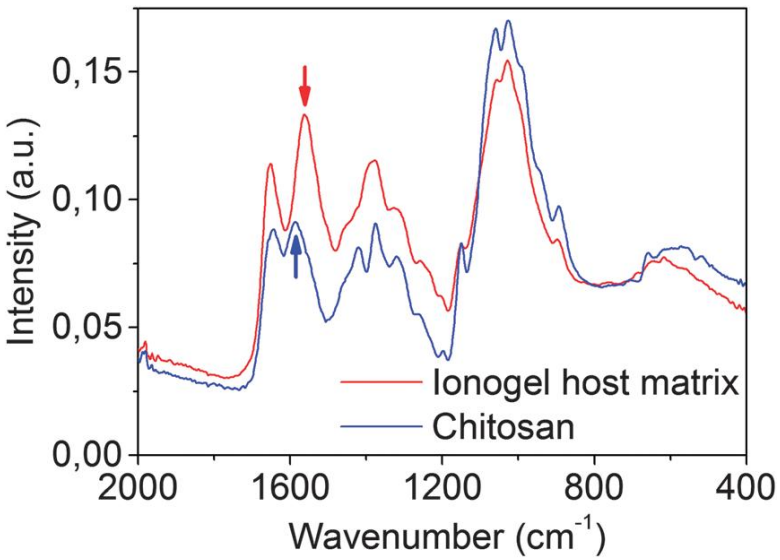

Figure 2.1: Infrared spectra of hitosan and ionogel.

In addition, Figure 2.2 shows typical SEM images that demonstrate the liquid precursor of the solid-state electrolyte is able to wet and fill the composite electrode porosity down to the interface with the aluminum collector (Aidoud et al., 2016).

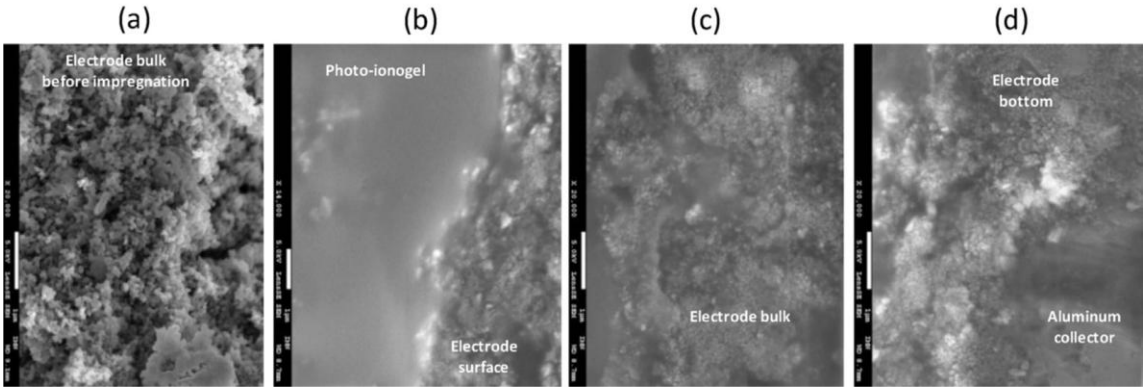

Figure 2.2: SEM observations of: (a) porous composite electrode; (bed) composite electrode filled by a photo-ionogel. Scale bar d is 1 mm on each picture.

2.3 Maximum Length

The maximum length of the report, excluding appendices is shown in Table 3.2.

Table 2.3: Maximum Length

Report	**Pages**
Extended Proposal	10 pages
Interim Report	20 pages
Progress Report	30 pages
Dissertation	50 pages

CHAPTER 3

REFERENCE STYLE

IEEE citation style is used primarily for electronics, engineering, telecommunications, computer science, and information technology reports. The three main parts of a reference are as follows:

- Author's name listed as first initial of first name, then full last.
- Title of article, patent, conference paper, etc., in quotation marks.
- Title of journal or book in italics.

This system allows the reader to identify the information source at a glance. All punctuation, dates, and page numbers depend on the type of reference cited, so follow the examples with care. Please note this style guide is wide ranging, but not all sources are identified. Further research may be required.

3.1 Citation Within the Text

The first step of the reference citation process is within the report itself. Each citation must be noted within the text through use of simple sequential numbers. A number enclosed in square brackets, placed in the text of the report, indicates the specific reference. Citations are numbered in the order in which they appear. Once a source has been cited, the same number is used in all subsequent references in the report. No distinction is made between electronic and print sources, except in the citation reference details.

Each reference number should be enclosed in square brackets on the same line as the text, before any punctuation, with a space before the bracket.

Examples

". . .end of the line for my research [13]."

"The theory was first put forward in 1987 [1]."

“Scholtz [2] has argued. . . .”

“For example, see [7].”

“Several recent studies [3, 4, 15, 22] have suggested that. . . .”

Note: Authors and dates do not have to be written out after the first reference; use the bracketed number. Also, it is not necessary to write “in reference [2].” Just write “in [2].”

The preferred method to cite more than one source at a time is to list each reference in its own brackets, then separate with a comma or dash:

[1], [3], [5]

[1] – [5]

3.2 Reference List

To finish citing sources, a numbered list of references must be provided at the end of the paper. The list is comprised of the sequential enumerated citations, with details, beginning with [1], and is not alphabetical.

Page Format

- Place references flush left
- Single-space entries, double-space between.
- Place number of entry at left margin, enclose in brackets.
- Indent text of entries.

The following examples demonstrate the format for a variety of electronic and print sources. These citations are ones in widest use. Not everything is listed.

3.2.1 Electronic Documents

E-books

[1] L. Bass, P. Clements, and R. Kazman, Software Architecture in Practice, 2nd ed.

Reading, MA: Addison Wesley, 2003. [E-book] Available: Safari e-book.

Article in Online Encyclopedia

APPENDICES

APPENDIX A: Common Mistakes

1) Avoid underline in text and title

CERTIFICATION OF ORIGINALITY

This is to certify that I am responsible for the work submitted in this project, that the original work is my own except specified in the references and acknowledgement, and that the original work contained herein have not been undertaken or done by unspecified sources or persons.

2) Do not bold "Figure"

LIST OF FIGURES

Figure 1.1: Mechanism of controlled release fertilizer 2
Figure 2.1: Classification of controlled release fertilizers 6
Figure 2.2: Diffusion mechanism of controlled release 7
Figure 2.3: U.S Nitrous Oxide Emission 8
Figure 2.4: Fluid Bed Coating Mechanism 9

3) Avoid italic in text and title. Page number not following the right format

Chapter 3: Methodology / Project Work .....(30-43)

3.1 Project Activities.....(30-31)

3.2 Key Milestone and Gantt Chart.....(32-33)

3.3 Materials and Chemicals .....(34)

3.4 Experimental Methodology .....(35-43)

4) Chapter and title should be in different lines.

CHAPTER 1: INTRODUCTION

1.1 Background of Study
